Agreement for Container / Cart Delivery and Service:

Due to the heavy nature of High Country Disposal trucks, the customer shall hold High Country Disposal harmless from any damage that may occur on driveways due to the weight of the trucks.

Height Access: archways, signage and other overhead structures must exceed 14 feet in height for High Country Disposal trucks to clear structures. Trucks must also have room to turnaround.

The customer assumes liability for damages to public or private property, hard surface road or driveways which might occur during the loading, unloading, or servicing of the container and/or carts.

During snow events, the driveway must be cleared of snow for the width of our truck (12'), or carts need to be brought to the curb to be serviced. If neither is an option, a delay in service may occur. We always do our best to service our customers while safety is our number one priority for our employees and customers.
